

TCRC Inclusion Statement for Gender

Inclusion and Non-discrimination on the Basis of Gender Identity

Approved by the Board on February 14th 2023 : Policy Effective 1/1/24

Everyone, regardless of their gender identity or expression, is welcome to participate in TCRC races and events. To increase inclusivity and representation of our diverse running community, TCRC is updating its member and race registration processes to include non-binary as a choice for gender.

Beginning January 1, 2024, TCRC membership forms, paper and online, will include three gender choices – female, male and non-binary. Race registration forms will include the same three gender categories. Results for TCRC races will show three gender categories - male, female, and non-binary. Awards will be equitable for all three gender categories.

Runners are allowed to compete in the gender category - female, male or non-binary - that best aligns with their self-determined gender identity. Runners will be eligible for the awards offered in their selected gender category, regardless of their physical characteristics.
